A practical resource designed specifically for your school.

Your school event planner will be customised with your school emblem and printed in full colour to reflect the school branding. It will also include term dates, local holidays and any school event dates you wish to include!

The planner measures approximately 510mm x 740mm in size and is designed to be used as a poster on a wall or door.

Tell us how many copies of the planner you require and we will deliver them to you folded and ready for distribution.

This is also a wonderful chance for your school to develop relationships with local businesses whose support enables us to produce the planners. Our schools who have fully embraced this as a community initiative have found that the connections and opportunities that come from it are invaluable. We receive a lot of enquiries from businesses regarding ways that they can further assist our schools by providing sponsorship such as donations to fetes, sporting days etc.

"I have a planner on my wall.. as a mother I must say I LOVE these wall planners and I use mine every year!"

Victoria, Advertiser and Mother.

The creation of your school planner will require only minimal effort from your staff.

Our experienced staff will manage all the design and production work on your behalf. We will only need your guidance with the details of the specific dates you would like included on your planner. Many schools simply have us use the details from their web-based calendar, while others will provide us with a written list of relevant school dates. We also help where we can by providing any standard and community-based dates that we think may be of interest to your school community.

There is no charge to the school. The design and printing costs are covered by the advertising that we place around the perimeter of your planner. Our experience has shown that families value this combination – they like to know what is happening at the school as well as having quick access to local business information in an easy to read, no nonsense format. Through our extensive school experience, we have strict policies to ensure balanced and appropriate advertising.

The content of the planner will always remain at your discretion. Naturally, you need to work with us to ensure the planner has all your important dates and that these are accurate. You will receive a proof of your event planner to check and approve your important dates before it goes to print. Because we work with schools in all States & Territories and across public & private sector settings, we are well aware of school and government policies and work within them.

You will be responsible for distributing the planners to student families, staff and the wider school community. Based on the information you provide, we will deliver to you enough copies of the planner so your entire school population is covered. They will arrive in a folded A4 format (or slightly smaller) so they are easily distributed with your newsletter or on their own. We will ask you to notify us when they have been distributed and we will provide you with a sponsorship donation for your assistance.

Getting started is easy. Give our Schools Co-ordinator a call on **1300 987 650** to talk about your requirements or alternatively, fill in the enclosed authorisation form and we'll contact you to do the rest!

What others have to say

"Elizabeth Macarthur has made great use of the classroom calendars, they have been distributed to all students with a list of the main school activities and functions for the year, which is of great assistance for our community when planning their year, they have a good indication when the major school events are on."

Students are able to plan for their exams and work around other major school events that are on the calendar.

The calendars have also helped the school to build and strengthen its links with local businesses and the community with greater all round involvement, further to this the calendars have also increased the communication between the school and home and parents are also able to see the increase community links that have increased and developed.

Elizabeth Macarthur High School would like to thank Classroom Calenders for their continued support of public education and for the benefits that the calendar has bought to not only the school but the community as a whole, we look forward to continuing our partnership with Classroom Calenders in the future."

Elizabeth Macarthur High School, NSW

"Classroom Calendars provides a valuable service to our student, parent and staff communities. Their highly practical product encourages time management for students and allows for an effective communication channel between the College and our families. I would highly recommend their product."

Jacob Lowry Emmaus College Rockhampton, QLD

*** Not to scale.** Sizes are shown smaller than actual size. New and improved layout commencing in 2017.

"One of the most difficult challenges of being a student in senior secondary schools is time management. Classroom Calendars event planners are a great way of students being able to address this at home and at school."

Here at PSC, Year 12s are approached during their study lines in the library and offered a planner after conversations about their subjects and assessment due dates. Most happily accept them and we discuss where they can keep them at home for best effect. Year 11s receive their planners from their Study Line teachers who are familiar with their subject assignments and deadlines.

Year 10s receive theirs from their Home Room teachers. In addition a planner is placed in every classroom as well as teacher staffrooms.

As a teacher of Year 12 History I have found it valuable to highlight deadlines on the classroom calendar and refer to it each lesson.

The parent newsletter and School Council library reports are used to make parents aware of the planners too."

Ruth Sheridan - Teacher Librarian/History teacher Palmerston Senior College NT
